Absent from work (on leave, etc.)			6245	12.5
Inefficient data			714	1.4
Number of subject members			49841	100.0

1) Calculated employment-field percentages after excluding persons absent from work and inefficient data.

Note: Members without a place of employment were considered to be under the "Absent from work category," and calculations were revised accordingly. Percentage figures within the chart do not necessarily total 100%; inasmuch as these figures are rounded off to one decimal place.
